MASTERING WATER SUSTAINABLY

DATA SHEET

KUSTOMFLO OPEN PROFILE PIPE

PRODUCT DESCRIPTION: Structural profile wall HDPE pipe with smooth interior and corrugated exterior walls.

APPLICATIONS: Conveyance, detention, culverts, culvert rehabilitation, stormwater, sanitary and combined sewer, tanks, storage, manholes, and other custom structures and fittings.

RAW MATERIAL: High-density polyethylene (HDPE) ASTM D3350 meeting the requirements of cell classification PE 334433C (or E).

TECHNICAL DATA: Length: 20 ft/6.1 m (custom lengths available)
Integrated Socket and Spigot
Manning's n 0.009

WATERTIGHT JOINING SYSTEMS: Double gasket
Electrofusion joint
Extrusion weld

Note 1: The profile of the KustomFlo pipe can be designed according to the constraints specific to the project. This datasheet defines data for open profile KustomFlo pipe with a ring stiffness classification of RSC250. Please contact your Soleno representative for specific needs.

Note 2: Flow calculated at a full pipe flow with a 1.0% slope.

INSTALLATION: Visit our website at www.solenousa.com for the installation guide.

NOTES: For burial depth information and any other inquiries, please contact info@solenousa.com.
